Proposed Change:	<p>Add new usage code:</p> <p>4923 Engineered Waste Containment Structure – Non Regulated</p> <p>Definition: A non-regulated engineered waste containment structure.</p> <p>Primary unit of measure = Acres</p>				
Justification:	<p>Although the existing disposal cells identified in FIMS are generally designed and constructed under CERCLA, RCRA, or UMTRCA regulations; there are other engineered structures that contain non-regulated waste. This additional usage code would help separate all non-regulated waste containment structures.</p>
